DOG PARK COMING SOON!
Location Option #1 Near Future Bandshell will be the location of the new dog park!

PALMER PARK Unleashed

The Palmer Park Unleashed Dog Park Committee (PPU) is an ad-hoc committee of [People for Palmer Park](https://peopleforpalmerpark.org), and partner with the City of Detroit and the general canine-loving community. It was formed to help create a Dog Park in Palmer Park. We are supported by The Kresge Foundation and KIP:D+ partners, Michigan Community Resources and Co.act Detroit.

Dogs must be on a leash in Palmer Park at all times. The only place where dogs can run free and unleashed will be within the new Palmer Park Unleashed Dog Park, which is in the design phase now. We anticipate it to open at the end of summer 2023 or fall 2023. We meet weekly on Zoom. Email us for the link: info@palmerparkunleashed.com

Dear Deer part 2

By Anita Flies

Ron Flies took this picture in mid-January 2023. Was it just a one-time sighting? Read on!

Please be extra careful while driving through our neighborhood, especially at night. A number of deer have taken up residence in Greenacres-Woodward!

On one evening, in late March 2023, a large doe was spotted snacking on greenery in Briarcliff backyards. Her fawn rested in the back of Liz and Dick's yard while mama deer munched on Liz' newly sprouted flowers. Mama deer also took advantage of the bird bath to wash down the purloined greenery.

Later, mama and baby scampered across Briarcliff; and, **no, they didn't look for oncoming vehicles!**

One week later, at 2 o'clock in the afternoon, the deer were back snacking on greenery in Briarcliff backyards. They are not even waiting until dusk to show themselves.

FYI: In 2021, 50,000 deer/vehicle crashes were reported in Michigan (1,500,000 in the US). Annually, deer/vehicle incidents cause up to 200 deaths and 10,000 injuries in the U.S. Insurance companies reported that these crashes resulted in \$1 billion in damages.

City Council Resolution: Vote to Help Detroit Libraries

By Karen Hammer

RESOLUTION TO HALT TAX CAPTURES FROM DETROIT PUBLIC LIBRARY (DPL)

"WHEREAS, the reallocation of Detroit Public Library taxes to reimburse private developers has been demonstrated to have caused immense harm to the Library's budget and ability to function; and

WHEREAS, the funds that the voters of Detroit approved in 2009 to provide for capital improvements via a bond have never been allocated to the Library, despite the City collecting the money from Detroit residents; and

WHEREAS, the FY 24 budget proposes an increase in annual tax captures from library funds of \$800,000, draining \$28 million additional dollars from the Library's budget over the next 35 years; therefore

BE IT RESOLVED, that the Detroit City Council hereby caps the total tax captures that can be taken from the Detroit Public Library at \$3.4 million in FY 24; and

FINALLY RESOLVED, that copies of this resolution be forwarded to Mayor Mike Duggan, Governor Gretchen Whitmer, and all interested public media, civil society, educational and civil groups and individuals who are vested in supporting the Detroit Public Library system."

The resolution is a helpful step forward. If adopted and enforced, it can save the DPL tens of millions of dollars over the coming decades. It freezes the City's tax captures on the DPL at the current amount, so that there would be no new tax captures in Fiscal Year 2024. BUT City Council cannot repeal tax captures that the Downtown Development Authority (appointed by Mayor Duggan, who also is the CEO) *has already committed DPL revenue to pay.* [Example: District Detroit]

The new Senate Bill 243 (also listed as 0243) introduced by Senator Santana and supported by Senators Chang and Geiss, permanently bans new tax captures on the DPL- when the bill becomes law.

This resolution will now go before the Detroit City Council's *Budget, Finance and Audit Committee* for review. The committee, chaired by Council member Fred Durhal, includes Council members Coleman Young (at large) and Gabriela Santiago-Romero. Please let them know your views on this resolution. Once it passes this committee, it goes to the whole City Council for a vote. You can let them know your views, too.

Greenacres Woodward Community Radio (GWCRP) Patrol Celebrates Its 36th Year

By Sheila Ward Photos by Maria Dickerson

In March 2020, COVID-19 restrictions forced the cancellation of the GWCRP's 33rd Anniversary Celebration. The group pivoted quickly and held monthly meetings on Zoom, where everyone could participate. Even the annual holiday parties were conducted via Zoom

A full 3 years later, on March 27, 2023, the patrollers gathered at New Prospect Church for their first in-person meeting since the COVID shut-down. How fitting that it was a celebration of the group's longevity, and the members' commitment to keeping their community safe!

A delicious dinner was followed by the Induction of Officers and Rededication of members. The Honorable Coleman A. Young II, Detroit City Council Member-At-Large, was the guest speaker. He reminded the group that crime is decreased in neighborhoods that have active radio patrols, congratulated the membership for their longevity, and presented Spirit of Detroit Awards to the Patrol and to President Jim Ward.

Two dedicated patrollers, Karen Hammer and John Campbell, who had received the Radio Patrol's Honors of the Association, were further recognized with special plaques from the Office of the City Clerk.

The Patrol awarded Certificates of Appreciation to 3 more deserving individuals: Capt. Shanda Starks from the Detroit Police Department, for her support while she was assigned to the 12th Precinct; Yolanda Watson, the City of Detroit Administrator who handles budget and financial matters for all citizens radio patrols in the City; and Madeline Drury, Outgoing Chair of the Patrol's Internal Communications Committee.

All members who had participated during 2022 received a cap embroidered with the patrol logo, shown here. The evening ended with drawings for door prizes donated by Meijer, Regeneration Clothing, the Liquor Palace, and several radio patrollers.

GWCA Requests Status Report re: State Fairgrounds Land Sale

At its May meeting, the GWCA Board approved a motion to request information from the Detroit City Council, as outlined in the letter below. To read the 14 resolutions visit detroitmi.gov, enter "Fairgrounds" in the search bar, and select "State Fairgrounds City Commitments."

On behalf of the Greenacres-Woodward Civic Association, I am writing to request a report on the status of Council commitments made 2 years ago in conjunction with the sale of the 142 acres of public land that was the site of the Michigan State Fairgrounds. The resolutions, 14 in all, were passed in response to residents' concerns expressed during numerous City-sponsored virtual meetings in the leadup to the sale of the Fairgrounds property.

The resolutions can be found here, or by searching "state fairgrounds development" on the city's website, and consist of promises such as:

- The City will explore utilizing eco-friendly resources and materials in order to keep in line with the Detroit Sustainability Agenda and further the goal of creating a carbon neutral local economy.
- The City will work with community organizations, non-profits and churches to establish community partnerships that speed up the development of the impacted communities, and educate residents on employment opportunities and job training, and
- Through community meetings, the Planning and Development Department will research and explore long term housing and future economic development projects to protect community interest and ensure long term community control, assistance, and involvement.

In addition, we are concerned that the diesel truck traffic that will be generated by the Amazon warehouse and now the adjacent spec warehouse will have adverse impacts on the health and well-being of Detroiters. Will the health assessment and air quality testing promised in the resolutions be geared to minimizing and mitigating this traffic's adverse health effects?

We believe these and the other commitments are of vital importance to Detroiters, to the communities on both sides of Woodward Ave adjacent to the Fairgrounds site, and particularly to the Greenacres Woodward neighborhood.

The Greenacres-Woodward Civic Association looks forward to your report. We hope you agree that a proactive approach will help harmonize the council's resolutions with the best interests of your constituents. Thank you.

Sincerely yours,

Maria Dickerson, President

The Public Health Crisis Hidden in Amazon Warehouses

Submitted by Frank Hammer, from an article originally published January 2021

More information is available at <https://humanimpact.org/hiprojects/amazon> (the source of these facts and graphics)

AMAZON WORKERS ARE FACING A TRIPLE THREAT TO THEIR HEALTH, INCLUDING:

- Nearly **double the national average rate** of warehouse workplace injury
- **Chronic stress** from the workload and quota system
- Risk of **contracting chronic and infectious diseases** due to lack of restroom access and inadequate COVID-19 protections

"My dream job ended up being my nightmare, because I don't have my health anymore."

-Keith
Maintenance Technician
4 years at LGB3, Eastvale, CA

POLICYMAKERS NEED TO ENACT HEALTH & SAFETY STANDARDS

Amazon's warehouse policies harm health. **Across the country there is a need to enact statewide health and safety standards to support the one million Amazon workers in the U.S.** Policies needed include:

- An end to the quota system
- Ergonomic work conditions for all workers
- Greater COVID-19 precautions in the warehouse including unlimited time to use the restroom and hand-washing stations and to sanitize workstations
- Opportunity to hydrate and take rest breaks based on worker need, not company priority

AMAZON'S QUOTAS CAUSE INJURIES

Amazon quotas are too high for a safe and healthy pace of work.

Amazon
7.7 per 100
workers

Other warehouses
4 per 100
workers

Workers share that Amazon's quota system forces them to push beyond what's safe for their bodies, which has led to injuries, chronic pain, disabilities and fatalities
